Backend developer
Lifelinkr

05/2024 - 08/2024   *New Delhi , India*

Worked on 2 module Admin Inventory And Billing

- **Inventory:- Stock Tracking:** Monitors the stock levels of all items in the hospital inventory, including medications, consumables, and equipment.
- **Reorder Alerts:** Automatically triggers alerts when stock levels fall below a predefined threshold, ensuring timely reordering.
- **Supplier Management:** Maintains a database of suppliers and facilitates the ordering process directly through the system.
- **Billing:-Invoice Generation:** Automates the creation of invoices for patients based on services rendered, such as consultations, procedures, medications, and diagnostics.
- **Payment Tracking:** Monitors payments made by patients or their insurance providers and tracks outstanding balances.
- **Concessions:** Applies discounts based on hospital policies, patient categories (e.g., senior citizens), or special circumstances.
- **Refund Management:** Manages refunds for overpayments or cancellations.
- Technology : **Nodejs, ExpressJs ,Sequelize, JQuery, Axios, HTML,CSS**

Backend Intern
Abhiwan Technology Pvt. Ltd.

01/2024 - 03/2024   *New Delhi , India*

Learn Many thing about the Real world Project

- Over the Intership of developing 4-5 projects, I have thoroughly enjoyed the experience, which has not only enhanced my technical skills but also taught me valuable lessons about teamwork, problem-solving, and project management. These experiences have helped me understand how to fit into an industrial working environment and culture.
- I've gained practical insights into how to collaborate effectively with cross-functional teams, adhere to deadlines, and deliver high-quality work under pressure. This hands-on experience has prepared me to seamlessly transition into an industrial setting, where I can contribute my skills and continue learning and growing professionally.
